

# THE SWING CENTER

Thank you for your interest in The Swing Center at Hawk Meadows. The lesson or clinic experience at The Swing Center will provide students with a comfortable understanding of the golf swing that will combine the basic golf and swing fundamentals with the sense of feel for the swinging motion. Training the mind and body to perform the true swinging motion will ensure repetitive success and a real enjoyment of the game. It is our belief that all golfers, whether you're a beginner or tour professional, will become a better and more consistent player when developing a true sense of feel for the swinging motion. Achieving this will ensure many proper swing mechanics are achieved naturally.
